------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------

A new **Online Interactive Micro Learning Course** has been developed by **Accessible Water & Wastewater Solutions Ltd.** This course requires a high-speed internet connection. It is formatted to work on a Computer, Tablet or a Mobile device (phone) to use anywhere, at any time, and is approved for operator license renewals Continuing Education Units.

This course is broken down into 8 modules that range in time from 35 to 75 minutes each to complete, however each module can be stopped and resumed whenever needed. It is designed to allow the operator to do as many or as few in a sitting as he may have time for. Total estimated time to complete all modules is 7.5 hours.

Modules allow an operator to take the course over a period of time without severely impacting his work schedule. This not only saves time away from work but also it is a significant savings in travel time, accommodations, meals, and other expenses associated with travelling when taking the course in person to acquire the needed knowledge for Health & Safety as well as and continuing education units (CEUs) for operator's license renewal.

These modules are interactive, requiring some input from the operator to keep them engaged, as well as using video's which assist with visual learning. A certificate with approved CEUs will be sent to the participant by email upon successful completion.

Each registered participant will require their own unique email address to login as their username. A password will be supplied to login as soon as payment is arranged to enable the operator to complete the course before it ends for this session.

Module	Estimated Time
(1) N.S. OH&S Act	70 Minutes
(2) Regulations	50 Minutes
(3) Canada Labour Code	35 Minutes
(4) Confined Space	50 Minutes
(5) Confined Space in-depth video	60 Minutes
(6) Safety Data Sheets	75 Minutes
(7) Rescue service personnel	35 Minutes
(8) Global Harmonized System	75 Minutes

It is best to **register as early as possible** to all more completion time without stress.
